Audit Committee, 26 September 2013

Internal audit – Review of recommendations

Executive summary and recommendations

At its meeting on 29 September 2011, the Committee agreed that it should receive a paper at each meeting, setting out progress on recommendations from internal audit reports.

health & care professions council

Most of the information in the appendix is taken from the wording of the internal audit reports. The exception is the 'update' paragraph in the right-hand column, which provides details of progress.

Recommendations which have been implemented have been removed from this report. The original numbering of recommendations has been retained.

Decision

The Committee is requested to discuss the paper.

Background information

Please refer to individual internal audit reports for the background to recommendations.

Risk 3: Financial losses arising from fraud or error, inefficient processing or inappropriate activity (such as ghost employees, payment of staff who no longer work at the Council, authorised payments, etc)

	Observation/Risk	Recommendation	Priority	Management response	Timescale/ responsibility
2	 Observation: Finance receive an HR Pack on a monthly basis which includes the HR Summary spreadsheet and relevant supporting documentation detailing starters; leavers; contractual variations; acting-up allowances; changes to address etc. Whilst our review confirmed that this information was received by Finance, in a timely manner and before the deadline of the 15th of the month, as there is currently no direct interface between the HR Systems and Sage, the information has to be entered again on to Sage. It is noted that a review of the HR system is planned to be undertaken. <i>Risk:</i> Holding two databases with staff details and duplication of data entry are unlikely to be an efficient use of resources. 	As part of the planned review of the HR system, consideration should be given to a more effective interface between the HR and Payroll systems to avoid duplication in entry of data.	Housekeeping	Project proposal to review HR & partners information systems, including link to payroll to be submitted to Executive team in November 2011. Income Collection & Debtors (report dated September 2012 – considered at Audit Committee 28 November 2012)

Assurance on effectiveness of internal controls: Substantial Assurance

Recommendations summary

Priority				Number of recommendations				
Fundamental				None				
Significant				None				
Houseke	Housekeeping			3				
Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.		
2013-09-26	а	AUD	PPR	Executive summary review of recommendations Audit Committee 26 September 2013	Final DD: None	Public RD: None		

Risk 1: Inability to collect from debtors (Finance – Risk No 15.6)

	Observation/Risk	Recommendation	Priority	Management response	Timescale/ responsibility
1	Observation: Currently, all payments received by cheque, postal order and cash are initially processed on NetRegulate by Registration Advisors and then all information is transferred to Finance – Transactions team for checking and processing the following day. The same cheque/postal order is reviewed and checked twice (once in Registrations when it is input to NetRegulate, and once in Finance as part of the daily banking). It is not clear that the checking of each cheque/postal order in Finance, which may take a considerable amount of time, adds much value in addition to the original check performed by Registrations. The checking of cheques and postal orders is not the main role of Registration Advisors who primarily deal with processing application forms and advising registrants and applicants on matters relating to their registration. Therefore a 'cashier' role specifically dealing with cheques, postal orders and credit/debit card payments and not	Consideration should be given to reviewing the processes for checking and banking of income received by cheque, postal order and credit /debit card to ensure that the most efficient process is in place. For example, the current checking performed by Registrations and Finance and the potential for a 'Cashier' role.	Housekeeping	We agree that the way this process is currently handled is not the most efficient and consideration will be given to ways of eliminating the duplication of tasks.	Director of Finance/Head of Registration Improvements to this system are now a part of the HCPC project prioritisation plan. Timescale: Net Regulate changes October 2013

Date	Ver.	Dept/Cmte	Doc Type	Title	Status	Int. Aud.
2013-09-26	а	AUD	PPR	Executive summary review of recommendations Audit Committee 26 September 2013	Final DD: None	Public RD: None

dealing with other parts of the Registration process may be more efficient and less likely to produce errors. Such a role would reduce or remove the need for additional checks in Finance – Transactions and would also speed up the processing, such that transactions processed on NetRegulate by Registrations would not have to wait until the following day to be checked and processed in Finance – Transactions, but could be banked the same day – thereby reducing problems around cut-off at the end of each month. <i>Risk:</i> Duplication of effort resulting in inefficient use of resources.				
Issue: Timing difference at month end date – On the last working day of the month, transactions are posted by the Registration team on NetRegulate which are not processed by the Finance team until the following day. Recommendation: Finance team to work with Registration team to ensure that items posted on last working day of month in NetRegulate are also processed on the same day	Currently, this has been resolved by members of the Finance – Transactions team staying late at month-end to ensure transactions are processed the same day.	Housekeeping	NetRegulate process changes are being developed by DSL to enable us to produce a monthly report to show exactly what is being processed at month end.	Head of Financial Accounting These changes are now a part of the HCPC project prioritisation plan. Timescale: Net Regulate changes October 2013

	are currently, engaged in bribery, thereby leading to reputational damage and potential breach of the Bribery Act by the organisation.	based, an assessment should be made on the current and future supplier list to identify any that could be considered higher risk. For any such suppliers due diligence should be extended as appropriate, for example conducting a search of directors with disqualifications, news searches for court cases involving bribery etc.		involvement of different people in the process. A review of our suppliers' database will be one of the tasks assigned to our procurement manager when recruited.	
5.6	Communication: Although the Bribery Act has been mentioned at staff meetings this is not minuted. Similarly, although the partner governance policies make indirect reference to bribery risks, there has been no explicit communication to partners (including lay partners) on the HCPC's zero tolerance to bribery.	It would be good practice for general fraud and bribery risks to be formally raised, and minuted, with staff at least once a year, ideally around the Christmas period when the generic risk of fraud and bribery increases. This could be done by way of the staff newsletter. Similarly, a communication to partners (including lay	3	We will make sure that bribery risks are made clear to employees during their inductions and may issue occasional reminders and policy updates. Information of bribery risks will be provided when partners are appointed.	September 2013 Partner Manager Complete
