Introduction

The communication workplan for 2007 - 2008 details our main areas of work and sets out how we will work towards achieving the objectives of the communications strategy.

The communications department is both proactive and reactive in its work and requirements may change, particularly in light of business needs. Significant issues may arise, for example the anticipated White Paper which sets out the Government's vision for the future of healthcare regulation and any subsequent operational impact this may have. The department will need to be flexible in the delivery of its workplan in order to respond accordingly.

This document

This document is divided into several sections. It details our resources, the communications tools we will use and how our activities link to the communication objectives set out in the communication strategy.

Resources

The communications department consists of seven employees as follows:

Jacqueline Ladds	Director of Communications
Sarah Giles	Team Administrator
Thomas Heiser	Events Manager
Victoria Nash	Communications Manager
Tony Glazier	Web Manager
Philippa Richardson	Publications Manager
Vacancy	Public Affairs Manager

The Director of Communications is responsible for the overall management of the team, the day to day running of the department, the development of the strategy and workplan and the development of new projects.

The Team Administrator provides support to the department across all its activities, particularly press, events and publications and responding to requests for information and the co-ordination of the student talks programme.

The Events Manager organises all the HPC's internal and external events, particularly the Listening Events and Annual Meeting as well as our attendance at exhibitions and co-ordination of the external presentation and talks programme.

The Communication Manager leads on our public facing campaigns, press and media activity and the development of the internal communications function.

The Web Manager is responsible for maintaining and developing the HPC website, the HPcheck microsite as well as the Council extranet and employee intranet.

The Publications Manager leads on all aspects of the publications process, including the visual identity and house style, provides support to departments in the production of publications and produces the registrant facing In Focus newsletter.

The Public Affairs Manager is responsible for developing communications with government and co-ordinating stakeholder communications.

Communication activities in 2007 - 2008

There are eight main areas of work undertaken within the Communications Department. The following paragraphs summarises the headline activity for the year.

We will continue our proactive approach when communicating with the public through **campaigns** with the main objective of raising awareness of the HPC and the importance of checking a health professional is registered. In 2007 – 2008 our headline activities will be to continue to promote HPcheck to the public through media and advertising campaigns and continued promotion of the “Be sure I’m registered” initiative to registrants, encouraging them to use the logo across all applications.

The **media** is an important tool and we will continue to promote our work through the national, regional and professional media, maximising opportunities to promote the HPC and our public protection role. In 2007 – 2008 our headline activities will be to appoint a media agency to work with us to increase coverage about the HPC in the press and develop a contacts programme to build relationships with key journalists, continued promotion of our public protection role through the regional media by issuing news releases based on the Fitness to Practise hearings and continued promotion of our role to the professional press.

The **web** is an important method of providing comprehensive information to all our audiences in a cost effective and efficient way. In 2007 – 2008 our main projects will be to further expand website content in line with departmental and organisational need, enhance the website and extranet in line with the refreshed visual identity, review and develop the intranet, and undertake market testing to identify improvements in line with user requirements.

The **publications** we produce provide an important source of information to all our audiences and in 2007 – 2008 our main activities will be to review and develop our public facing literature ensuring as wide a distribution as possible, develop an information pack for prospective registrants, continue to produce In Focus, provide detailed guidance on visual identity and house style, and provide support to departments across all publications.

Events will continue to be an opportunity for us to engage with all our audiences and provide opportunities to listen and seek their views. In 2007 – 2008 our focus will be to continue to host Listening Events across the UK, exhibit at a range of conferences and identify new opportunities, research and devise events for stakeholder audiences, including employers and parliamentarians, seek to increase speaking opportunities at key conferences, and organise all employee events.

Employees play an active role in getting messages to our audiences and should be considered as ambassadors for the HPC. Our key aim in 2007 – 2008 will be to review and develop the intranet, continue to organise all employee events and activities, develop strategic all employee briefings, and develop an **internal communications** programme based on the recommendations of the 2006 review.

In carrying out our UK wide role we work closely with a number of other organisations, including professional bodies, government, employers and patient and consumer groups. We have already established good working relationships and in 2007 – 2008 the focus of our **public affairs** activities will be to research key parliamentary contacts and networks and build relationships through face to face meetings and briefings, produce and disseminate information to all constituency MPs and their offices to ensure they are informed of our public protection role, and build a co-ordinated approach to stakeholder activities, focusing on employers and professional bodies through the development of issue specific events, targeted briefings and the development of a stakeholder newsletter.

We will continue to support organisation-wide **projects** by delivering effective communication plans and activities for projects which may be major areas of change or development for the organisation. Projects in 2007 – 2008 which will require communications input include Continuing Professional Development; the regulation of new professions and the recommendations arising from the review of non medical healthcare regulation.

A communications plan has been produced for the communication of CPD standards and guidance to registrants and employers which includes the delivery of UK wide presentations, the use of the newsletter, press and web activities. We anticipate a number of new professions to join the HPC Register this year, in particular Applied Psychologists (approx 14,000) and the Hearing Aid Council (approx 1,300). Communication with employers, professional bodies and members of the new profession will be key and activities will include proactive press to professional media, the use of the website and the production and dissemination of appropriate publications to the new professions.

Achieving the communication objectives in 2007 - 2008

We have identified five communication objectives in the strategy. In 2007 – 2008 we will undertake the following activities in support of these objectives.

Communication Objective 1:

To raise awareness of the HPC's role in regulation across all our audiences, we will

- maximise the opportunities to increase coverage about the HPC in the national, regional, professional and consumer press
- enhance and extend the house style and visual identity across all literature
- seek to increase opportunities for talks, presentations and exhibitions and
- continue the ongoing development and improvement of our web presence.

Communication Objective 2:

To extend our reach to the public enabling them to easily access information about the HPC, we will

- organise public awareness campaigns
- develop public information literature and its dissemination
- showcase the work of the HPC to MPs, their researchers and constituency offices
- continue to develop our patient and public involvement activities
- and map consumer associations, patient groups and referrers and develop organisation wide channels of communication.

Communication Objective 3

To influence the regulatory agenda through ongoing dialogue and engagement with key stakeholders, we will

- identify key parliamentarians and build relationships
- undertake market research and opinion polling
- map stakeholder audiences and develop organisation wide channels of communications (articles, e-bulletin, events)
- and respond to recommendations resulting from the review of non-medical healthcare regulation.

Communication Objective 4

To engage with our registrants to ensure they understand the work of the Council and what is required of them, we will

- develop the content and increase the distribution of *In Focus*
- encourage use of "Check I am registered" logo
- develop information packs for prospective registrants
- support the regulation of new professions to the HPC Register
- support the communication of CPD standards and guidance to registrants and employers
- continue to host Listening Events across the UK
- support the communication of revised standards and guidance
- and play a key role in the production of all registrant facing brochures and literature.

Communication Objective 5

To support effective internal communications within the organisation, we will

- develop mechanisms including face to face Chief Executive led strategic briefings, ad hoc briefings on specific issues, consistent team briefing and all employee events
- and review and develop the intranet.

2008 – 2009

2007 – 2008 will primarily be a year where we continue to undertake some of our more established activities, particularly web, campaigns and publications, but it will also be an opportunity to undertake some groundwork, developing and establishing organisation-wide channels of communication, particularly in public affairs and stakeholder communications as well as developing an internal communications function and building our media presence.

In 2008 – 2009 we will build on this work and our activities will be informed by the opinion polling we will have undertaken in the autumn of 2007 and the evaluation of the 2007 – 2008 workplan. A key area of activity will be the Partners and the establishment of other channels we may have developed through 2007 – 2008.
