Decision:
<p>1. That, in respect of this programme:</p> <ul style="list-style-type: none"> i) the outcome recommended by the visitors (including the conditions set out in their report) be accepted; ii) those conditions must be met before the programme is approved; and iii) a further visit is required to make an appropriate assessment of the education provider's response to those conditions . <p>2. Any further visit is to be regarded as a continuation of this approval process and thus, as the education provider's first attempt to meet the conditions. Any further visit should:</p> <ul style="list-style-type: none"> i) take place 3-5 months after this decision; ii) include all meetings that are required as part of an approval visit; and iii) focus on the SETs in respect of which the conditions have been set.
Reasons

1. In reaching its decision in respect of this programme, the Panel has considered the visitors' report and the observations of the education provider and is satisfied that the conditions are necessary in order for the programme to meet the standards of education and training. In particular, the Panel is satisfied that:
 - i) the conditions outlined in the report are proportional based on the visitors' report and education provider observations and as such should be met before the programme is approved, subject to the variations and clarifications set out below; and
 - ii) due to the nature of the conditions articulated in the visitors' report a further visit is required to make an appropriate assessment of the education provider's response to the conditions;
2. In reaching its decision in respect of this programme, the Panel is satisfied that a further visit is required to appropriately assess any response from the education provider to the conditions. In particular the Panel is satisfied that:
 - i) to ensure that sufficient time is provided for the education provider to respond to the conditions, for a further visit to be arranged and for any further documentary evidence submitted by the education provider to be scrutinised, the Panel considers that the visit should take place 3-5 months after this decision;
 - ii) the nature of the conditions is such that further meetings with the programme team, senior team, students, practice placement providers and service users and carers are required to effectively scrutinise the education provider's response to the conditions; and
 - iii) any visit will only need to consider evidence submitted by the education provider in respect of the SETs on which conditions have been set.
