

**Health Professions Council
Professional Liaison Group, Continuing Professional Development, 15th
December 2005**

Draft further information for registrants undergoing audit

Executive Summary and Recommendations

Introduction

The Council has agreed to provide more information for registrants about CPD. At the last meeting, it was suggested that two documents could be drafted concerning CPD, one brief document suitable for all registrants, and one more detailed document that could be appropriate for registrants undergoing an audit.

Attached to this document is the first draft of, 'Continuing Professional Development and your registration.'

Decision

The professional liaison group is asked to:

- discuss the attached draft, and to recommend any changes that are necessary.
- circulate the next draft (with changes from this meeting) to professional bodies for their input and possible discussion at the meeting in February.
